### HOSPITALIZATIONS

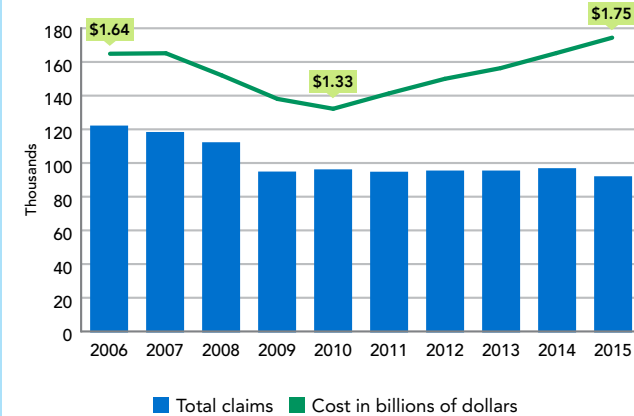

### INJURY AND ILLNESS TYPES, 2015

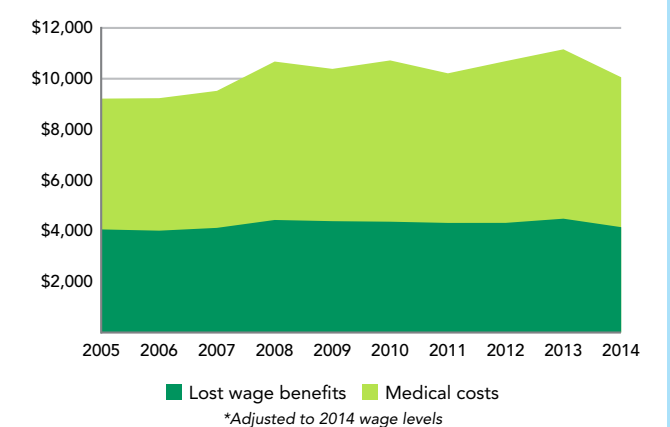

## WORKERS' COMPENSATION

The number of claims has dropped since 2006, but the cost per claim has increased.

### CLAIMS AND TOTAL SYSTEM COSTS

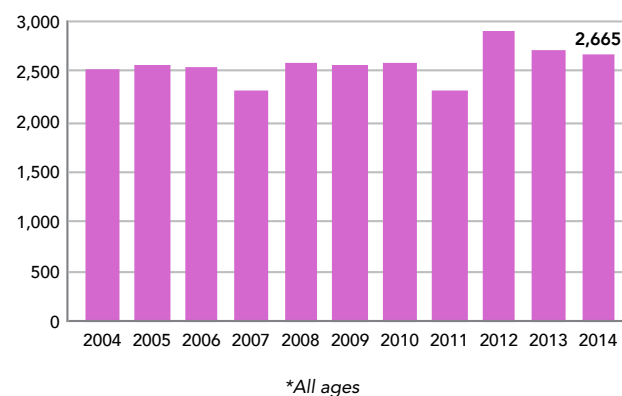

### COST PER CLAIM

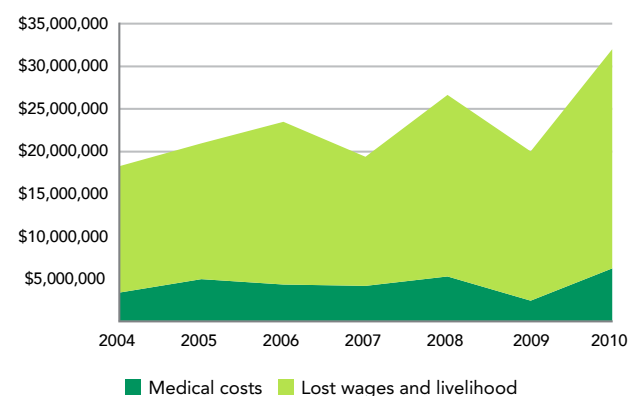

## FARM-RELATED INJURIES

Seven people a day are seriously injured on the farm.

### SERIOUS INJURIES

### COSTS

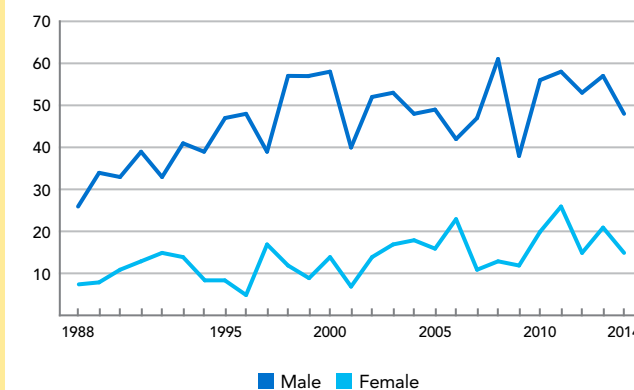

## MESOTHELIOMA

Workplace illnesses like mesothelioma can appear many years after exposure. Almost all cases among men are due to asbestos exposure at work. Workplace illnesses also reach into the home. A significant portion of the female cases are due to second-hand exposure to asbestos dust brought home on clothing.
