

LOAN POLICY-----

Minnesota Safety Council Members: All videotapes and DVD's are available to Minnesota Safety Council members for a five-working-day period without charge. Extended rental periods are available at \$25 per five-working-day period (subject to availability). Up to three items can be borrowed at one time. Members may not borrow materials for use by nonmembers.

Nonmembers: Nonmembers within the state of Minnesota may borrow videos and DVD's at a rate of \$100 per title, per five-day rental period. Up to two items can be borrowed per rental period. (**Not a member?** See page 3 for membership information.)

Videos and DVD's not returned within the normal five day rental period will be charged at the rental rates above without exception! Rental periods beyond 10 days will be granted only on special request and are dependent upon availability.

RESPONSIBILITY

Borrowers are asked to handle materials with due care and will be charged for repair or replacement of materials damaged beyond normal wear and tear. Videos must be rewound before returning. All materials must be returned in original shipping container.

SHIPPING AND LIABILITY

When returning materials, please insure each video & DVD for a minimum of \$500. Videos lost or damaged in transit to our office will be charged to the borrower at replacement cost. Due to the high cost of replacing lost materials, no exceptions to this policy will be made.

SCHEDULING

Videos and DVD's may be requested by mail, e-mail, telephone, fax or in person at the Minnesota Safety Council Resource Center, 474 Concordia Avenue, St. Paul, MN 55103, telephone: 651-228-7302 or 1-800-444-9150, fax: 651-291-7584. When requesting videos, please indicate the date needed. **We encourage you to reserve videos or DVD's well in advance of desired showing date.** Many users book an entire year's schedule of videos to support their training. Minnesota Safety Council staff are eager to help you do that.

Videos and DVD's must be promptly returned after showing in order that other requests can be filled.

LOAN POLICY/EVALUATION FORM

A loan policy will be included in each package. The return due date will be listed. On the reverse side of the loan policy is an evaluation form. Please report any damage so that we can make the necessary repairs. By doing this, you help us assure that the videos are in good condition for your use.

RESTRICTIONS

Videos and DVD's may not be transferred from one organization to another, nor may they be shown where an admission or a fee is charged, nor may they be televised (including closed circuit and cable TV). Federal law provides severe civil and criminal penalties for the unauthorized reproduction, distribution or exhibition of copyrighted motion pictures (title 17, United States Code, Sections 501 and 506). The Federal Bureau of Investigation investigates allegations of criminal copyright infringement.

VIDEO & DVD LISTINGS ON-LINE-----

EXPERIENCED STAFF—EFFECTIVE SERVICES

Our staff of experienced safety and health professionals has decades of practical experience and can provide your organization with hands-on classroom training and other on-site services. If it's one-on-one help you're looking for, we offer on-site audits to help you prioritize your efforts to reduce risk, assure compliance with regulations and minimize costs. We also develop written programs to help

you comply with specific safety and health regulations and if needed, we assist in implementing them. Within *your* schedule and budget, our consultants do what it takes to help you gain the information and strategies you need to go beyond compliance and create an effective safety program. Why not put them to work for you?

The Minnesota Safety Council is a not-for-profit, non-governmental organization which since 1928 has been dedicated to making Minnesota a safer place to live.

----- NOT A MINNESOTA SAFETY COUNCIL MEMBER?

More than 3,000 member organizations support the Minnesota Safety Council. We are one of the top safety organizations in the country, nationally recognized for program excellence and sound management. We can be an integral part of your safety program. Here are just some of the benefits of membership:

Occupational Safety and Health Training

For safety and health pros, managers, supervisors and employees. (Nearly 100 topics!)

Driver Training

Defensive Driving and Commercial Motor Vehicle programs, resources and consultation available—classroom or online! Our DDC Mature Driver (55+) program qualifies people for a 3-year 10% reduction on personal auto insurance.

Consultation Services

Consultation in occupational safety and health, traffic, off-the-job, program development and more! Also OSHA-type inspections and customized training at your facility or ours.

Video and DVD Resource Library

No charge for members to use our videos or DVD's (over 500 titles) to train, educate and promote safety and health.

Publications

Newsletters with updates on regulations, training, trends and news from other parts of the safety and health world.

Toll-Free Telephone Line

Access to our staff of experts without a charge!

PLUS!

Membership dues provide the foundation for research and program development in occupational, traffic, home, youth, recreational and other areas of safety.

Call us with any questions at 800-444-9150 or 651-291-9150.

----- MINNESOTA SAFETY COUNCIL CONSULTING SERVICES

Occupational Safety

Program development and evaluation

Onsite walk-through inspections

Onsite customized training for employees, supervisors and managers on:

- Fundamentals of Safety Supervision
- Accident Investigation
- Electrical
- Fire Safety
- Forklift Operator Training
- AWAIR Compliance
- Lockout/Tagout
- Job Hazard Analysis
- Developing Effective Safety Committees

Occupational Health/Industrial Hygiene

Program development and evaluation

Onsite customized training for employees, supervisors and managers on:

- Right-to-know
- Emergency Response
- Confined Space Entry
- Heat and Cold Stress
- Noise/Hearing Conservation
- Respirators
- Hazardous Waste Site Clean-Up
- Bloodborne Pathogens
- Laboratory/Chemical Hygiene Plans

Ergonomics

Program development

Onsite training for managers, supervisors and workers

Back injury prevention

Workstation evaluation and design for:

- Computer workstations
- Hospitals
- Manufacturing facilities
- Return-to-work programs
- Americans with Disabilities Act (ADA)

First Aid/CPR/AED

All courses meet OSHA training recommendations and can be customized to fit your training needs.

First Aid Institute training for employees, supervisors and managers on:

- Standard and Advanced First Aid/CPR
- Child and Infant First Aid
- Wilderness First Aid
- Automated External Defibrillation (AED)
- First Responder

Transportation/Driver Training

- Policy development assistance
- Drug recognition expertise training
- Employee training for drivers of passenger vehicles
- Employee training for drivers of specialty vehicles: maintenance vehicles, vans, emergency vehicles, straight trucks, utility vehicles and almost 20 more!
