# MINNESOTA SAFETY & HEALTH CONFERENCE

**MAY  
4-5**

## WHAT'S INSIDE?

- ▶ Conference at a Glance.....4
- ▶ Governor's Safety Awards..... 7-9
- ▶ Conference Sessions ..... 11-16
  - Tuesday, May 4 ..... 11-13
  - Wednesday, May 5..... 14-16
- ▶ Exhibitors A-Z.....18
- ▶ Exhibitors by Category .....19
- ▶ Meet Our Exhibitors ..... 20-24

PRESENTED BY THE MINNESOTA SAFETY COUNCIL

## REMINDERS

### ▶ VIRTUAL CONFERENCE PLATFORM

This virtual event will be offered on a platform utilizing Microsoft TEAMS video conferencing. Attendees will need internet access and a computer with speakers, camera and microphone for interactivity with presenters and other attendees.

### ▶ GOVERNOR'S SAFETY AWARDS

Award recipients will be recognized during the Opening Session on Tuesday, May 4 and Wednesday, May 5.

### ▶ CONFERENCE EVALUATIONS

We'd like to hear about your experience! Session evaluations can be found linked from the virtual conference Lobby. Fill them out for each session you attend and submit electronically. An overall conference survey will be emailed to attendees after conference.

### ▶ GOLDEN TICKET CHALLENGE

Visit the virtual Exhibit Hall and earn a chance to win big-ticket prizes! The more exhibitors you visit, the more chances you have to win!

### EXHIBIT HALL

**HOURS:** Tuesday, May 4, 7:30 a.m. – 3:30 p.m. and Wednesday, May 5, 7:30 a.m. – 2:00 p.m.

**DEDICATED EXHIBIT TIME:** 9:00 – 10:30 a.m. both days; May 4, 12:00 – 1:00 p.m. and May 5, 11:30 – 12:30 p.m.

# VIRTUAL CONFERENCE AT A GLANCE

## TUESDAY, MAY 4

**EXHIBIT HALL OPEN | 7:30 a.m. – 3:30 p.m.**

**OPENING SESSION | AWARDS | 7:45 – 9:00 a.m.**

► **KEYNOTE: JESSICA RECTOR**

*Blaze Your Brain: Turn Negative Thoughts into Positivity, Bigger Actions, and Better Results*

**DEDICATED EXHIBIT TIME | 9:00 – 10:30 a.m.**

### **SESSIONS | 10:30 – 11:30 a.m.**

- Minnesota OSHA Update
- Influencing Without Authority, Making a Business Case for Safety
- Safe by Choice — Improving Safety Performance by Changing How We Think About Safety
- Keep Traffic Safety a Top Priority

### **WELLNESS MINI SESSIONS | 11:40 a.m. – 12:00 p.m.**

- Healthy, Hearty and Delicious!
- Laugh for the Health of It!
- Take Good Care — of Yourself!

**BREAK/EXHIBIT HALL | 12:00 – 1:00 p.m.**

### **SESSIONS | 1:00 – 2:00 p.m.**

- COVID-19 Claims in Minnesota's Workers' Compensation System
- Suicide Prevention in the Construction Industry
- Training Gamification: Putting the 'Fun' in Workplace Safety Fundamentals
- Impairment Testing Saves Lives!

### **SESSIONS | 2:15 – 3:15 p.m.**

- Occupational Health and Safety Trends in Minnesota
- Selling Safety
- Industrial Hygiene Management: Putting the 'H' Back in OSHA
- Minnesota's New Pedestrian Safety Campaign

**CLOSING SESSION | 3:30 – 4:30 p.m.**

► **KEYNOTE: JASON KUNZ**

*130 Interviews and Counting — Leadership and Influence in HSE*

## WEDNESDAY, MAY 5

**EXHIBIT HALL OPEN | 7:30 a.m. – 2:00 p.m.**

**OPENING SESSION | AWARDS | 7:45 – 9:00 a.m.**

► **KEYNOTE: ROSS BERNSTEIN**

*The Champion's Code — Building Relationships Through Life Lessons of Integrity and Accountability from the Sports World to the Business World*

**DEDICATED EXHIBIT TIME | 9:00 – 10:30 a.m.**

### **SESSIONS | 10:30 – 11:30 a.m.**

- Technical Writing Tips for the Safety & Health Professional
- Smokescreen: Marijuana Use and Workplace Safety
- Arc Flash, The NFPA 70E Standard and Your Electrical Maintenance
- Fatigued at Work — Drowsy Behind the Wheel?

**BREAK/EXHIBIT HALL | 11:30 a.m. – 12:30 p.m.**

### **SESSIONS | 12:30 – 1:30 p.m.**

- Working WITH Resistance to Change
- Occupational Disease Investigation Programs
- EHS Certifications — Help or Headache?!
- Critical Elements of Fleet Safety Process — Be Prepared for Auto Liability Renewal

### **WELLNESS MINI SESSIONS | 1:40 – 2:00 p.m.**

- Emotional Resilience and Mindfulness: Two Elements for Unleashing Your Potential
- Important to Take Time for YOU!
- Covid Vaccine 101

### **SESSIONS | 2:15 – 3:15 p.m.**

- Protect Your Hearing in Less Time Than It Takes to Damage It
- Developing a Successful Comprehensive Ergonomics Program
- Stress and Anxiety of a Safety Professional
- Auditing Process Safety Programs

**CLOSING SESSION | 3:30 – 4:30 p.m.**

► **KEYNOTE: STEVE DONOFRIO**

**Know what's below.  
Call before you dig.**

***Call 811 before you dig.***

When it comes to digging safely, you make the call. Whether you're working on a large excavation, or simply planting a tree in your yard, natural gas and utility line safety should always be job one – and that means calling 811 before you dig. Calling 811 helps you know where natural gas, electric, water and other underground lines are located. It also helps you avoid causing serious injuries, service interruptions, or possibly costly fines for damaged infrastructure. Make the call. It's easy. It's FREE. Respect the lines. Dig with care. After all, safety is in your hands, but always on our minds.

We're investing in infrastructure, technology and services that help keep you safe.

More information on natural gas safety is available at:  
**[CenterPointEnergy.com/Safety](https://www.centerpointenergy.com/safety).**

## KEYNOTE: Blaze Your Brain: Turn Negative Thoughts into Positivity, Bigger Action, and Better Results

**PRESENTER:** *Jessica Rector, Best-Selling Author, Speaker*

In an economy where self-doubt, worry, and stress are at an all-time high, you have that voice inside your head that never quits. It's constantly saying things like, "What if it doesn't work," "What if I fail," or "What's going to happen." You have 60,000 thoughts a day, and research shows 80% of them are negative. It might be hard to wrap your brain around having that many negative thoughts, especially since you aren't aware most of them exist. It's a pattern you've developed over the years. Then it becomes the story you tell yourself and by which you navigate everything else...how confident you are, how you lead others, how you succeed in unknown situations, or how you embrace change. To keep up with an evolving world, you can't keep thinking the same way you've always thought. Join us for this opening keynote to learn how to transform your thoughts and turn them into positive action.

## 87th Annual Governor's Safety Awards

The Governor's Safety Awards Program has been honoring Minnesota workplaces for excellence in safety since 1934. Join us as we recognize this year's recipients who have achieved outstanding results in safety.

**EXPERIENCE LEVELS:** [1] Fundamental, [2] Intermediate, [3] Advanced

**EXHIBIT HALL OPEN**  
7:30 a.m. – 3:30 p.m.

**Dedicated Exhibit Time**  
9:00 – 10:30 a.m.

## SESSIONS 10:30 – 11:30 a.m.

### Minnesota OSHA Update [1]

**PRESENTER:** *James Krueger, Director, Occupational Health and Safety Division, Department of Labor and Industry, Saint Paul, MN*

Don't miss this informative and engaging summary of what's happening with MNOSHA, and an opportunity to have your questions answered. This session will cover COVID-19 (past and present response), fatality trends, standards most frequently cited, regulatory initiatives and enforcement areas for MNOSHA.

### Influencing Without Authority, Making a Business Case for Safety [2]

**SPEAKER PANEL:** *Sara Ozan, MEHS, GSP, SFM; Kate Carlson, M.S., CSP, Chubb Global Risk Advisors; Mary Ferrian, CSP, IEA; Jamison Harrell-Latham, CSP, Target*

Have you ever been in a situation where you needed to gain buy-in from peers and employees that don't directly report to you? Found your plate to be full and needed some extra help? Join our panel of presenters while they discuss methods to influence without authority and, in some cases, make a business case for safety. This session is intended to be interactive. Bring your questions!

*\*Emerging Safety Professionals Session*

### Safe by Choice — Improving Safety Performance by Changing How We Think About Safety [3]

**PRESENTER:** *Rob Chvatal, Vice President of Safety, Braun Intertec, Bloomington, MN*

Improving safety performance is often a fight against human tendencies to repeatedly perform at-risk behaviors that become habits. To change these at-risk habits requires a change in the thoughts and attitudes behind the behaviors. The Safe by Choice approach is a proven method for sustainably improving safety by challenging how we all think about safety, and how leaders drive the needed thought-behavior patterns. Receive a framework to help all employees see their current safety-related attitude-behavior patterns; envision the opportunities to increase safe working habits; and help leaders see how their actions drive current and future safety cultures (e.g. common attitudes and behaviors) of the organization.

### Keep Traffic Safety a Top Priority [1]

**PRESENTER:** *Lisa Kons, Traffic Safety Programs Manager, Minnesota Safety Council, Saint Paul, MN*

Traffic crashes kill employees. They are the number one cause of worker deaths and the costliest worker's compensation injury by cause. Due to COVID-19 many employees are working remotely causing traffic volumes to drop considerably — yet the number of severe and fatal crashes have risen dramatically. Learn new ways to reengage your employees and encourage safe driving behaviors.

## WELLNESS MINI SESSIONS

11:40 a.m. – 12:00 p.m.

### Healthy, Hearty and Delicious!

**PRESENTER:** Chef Lorelei McInerney, *Cooks of Crocus Hill, Saint Paul, MN*

Join us as Chef Lorelei prepares one of our favorite sandwiches here at Cooks of Crocus Hill. The curried chickpea sandwich is healthy and easy to make, with unique flavors that blend together deliciously. Learn new techniques then prepare this tasty dish at home!

### Laugh for the Health of It!

**PRESENTERS:** Dan and Jill Johnson, *Joyful Living Therapy, Sioux Falls, SD*

It's been a tough year. More than tough actually. Couldn't we all use a little laughter to lighten up a little? Join us to see how laughter is the natural antidote for anxiety and stress and also a joyful

cocktail for our bodies. Raise your endorphins, lower your blood pressure, breathe deeply and learn a new, and natural, coping technique for our stressful times.

### Take Good Care — of Yourself!

**PRESENTER:** Cherolyn Fischer, *Peer Program Coordinator, NAMI Minnesota, Saint Paul, MN*

So often self-care takes a back seat in life. Come join us to discuss this important health topic and how it is connected to mental health. Learn some new techniques to help improve your self-care and receive some new resources to try out.

## BREAK/EXHIBIT HALL

12:00 – 1:00 p.m.

**Make sure to visit the Virtual Exhibit Hall, open Tuesday from 7:30 a.m. – 3:30 p.m and Wednesday from 7:30 a.m. – 2:00 p.m.** You'll find friendly and helpful exhibitors with practical, economical solutions to make your safety program more effective. See page 18 for exhibitor list.

## SESSIONS 1:00 – 2:00 p.m.

### COVID-19 Claims in Minnesota's Workers' Compensation System [1]

**PRESENTER:** Brian Zaidman, *Senior Research Analyst, Minnesota Department of Labor and Industry, Saint Paul, MN*

The session will provide up-to-date statistics about COVID-19 claim trends, the characteristics of the workers filing claims, whether the claims were accepted or denied, and claim duration and costs.

Learn how Minnesota workers may receive workers' compensation benefits for COVID-19; which workers were paid benefits and which types of workers were denied benefits; how claims filing changed over the course of the pandemic; and how the influx of COVID-19 claims affected Minnesota's workers' compensation system.

### Suicide Prevention in the Construction Industry [2]

**PRESENTER:** Don Garvey, *CIH, CSP, Senior Safety Consultant, Merjent, Inc., Minneapolis, MN*

According to the CDC, the suicide rate in construction is about four times greater than the national average and five times greater than that of all other construction fatalities combined. This presentation will explain the risk factors (e.g. opioid addiction, industry

culture, irregular work/pay checks) that make suicide a pervasive problem and challenge for the construction industry; examine signs that management, front line supervisors, co-workers, and friends can look for that may indicate a potential problem; and provide industry-specific suicide prevention resources.

### Training Gamification: Putting the 'Fun' in Workplace Safety Fundamentals [3]

**PRESENTER:** Greg Duncan, *EHS and Sustainability Expert, VelocityEHS, Chicago, IL*

EHS training is serious business, but it can still be fun and engaging. This session looks at how gamification and e-learning technologies can enhance the traditional training program structure to engage workers with EHS – helping to reduce incidents,

incentivize positive safety behaviors, and support a strong workplace safety culture.

### Impairment Testing Saves Lives! [2]

**PRESENTER:** Antonio Visconti, *CEO/Founder, SOBEREYE INC., Menlo Park, CA*

Fatigue, illness, alcohol, and drugs are all forms of impairment. Impaired employees are putting themselves and others at risk of injury and death exposing your business to enormous liabilities — 90% of accident reports indicate human error as

a contributing cause, but human error is a consequence, not a cause. Learn about an innovative and practical solution to measure impairment risk in the workplace.

## SESSIONS 2:15 – 3:15 p.m.

### Occupational Health and Safety Trends in Minnesota [1]

**PRESENTERS:** Erik Zabel, PhD, MPH  
*Occupational Health Epidemiologist  
and Program Director, Minnesota  
Department of Health, Saint Paul, MN;*  
Kathleen Norlien, Research Scientist,  
*Minnesota Department of Health,  
Saint Paul, MN*

The Minnesota Department of Health (MDH) Center for Occupational Health and Safety calculates and publishes a set of annual indicators to track the number and rate of job-related injuries and illnesses. This presentation will describe trends in the established indicators, and will describe new indicators in development. Learn the types of indicators calculated by MDH to track occupational health and safety in Minnesota as well as the high-level statewide trends in job-related injuries and illnesses, and how MDH is developing new occupational health and safety indicators. Know how to access MDH's occupational health data through the MDH website and the Minnesota Injury Data Access System (MIDAS).

### Selling Safety [2]

**PRESENTER:** Chris Seider, CSP, CHST, PHR, ARM,  
*Senior Safety and Risk Management Specialist, Foth  
& Van Dyke, LLC, DePere, WI*

As safety professionals, we see the value in spending money on prevention. The problem is, we often struggle to garner organizational support in these investments. This session will provide ways to calculate and demonstrate value of safety improvements. Topics will include ROI, time studies, process mapping, and other related techniques to better drive safety initiatives.

### Industrial Hygiene Management: Putting the 'H' Back in OSHA [2]

**PRESENTER:** Mary Bauer, CIH, CSP,  
*Compliance Assistance Specialist, OSHA,  
Eau Claire, WI*

Many companies do very well at documenting safety procedures and inspections. Very few companies manage adequate industrial hygiene or health programs. During routine inspections and VPP audits, OSHA ensures that the 'H' in OSHA is not silent! This session will focus on the minimum compliance requirements along with the value of the data and information collected for a sound health program. Learn what hazards require industrial hygiene assessments or sampling; recognize what OSHA will look at during a health inspection at your facility; and select methods to maintain health records that are accessible and capable to meet the retention timeframe.

### Minnesota's New Pedestrian Safety Campaign [1]

**PRESENTERS:** Michelle Pooler,  
*MnDOT Office of Transit and  
Active Transportation Safety and  
Education Coordinator, Saint Paul,  
MN; Anne Meyer, Public Affairs  
Coordinator, Minnesota Department  
of Transportation, Minneapolis, MN*

Everyone plays a role in keeping our roadways safe. This coordinated, statewide campaign will work to change Minnesota's traffic safety culture. Pedestrian safety toolkit, messaging and marketing ideas will be provided to help you, your employees and their families change their behavior toward safer walking and driving.

## CLOSING SESSION 3:30 – 4:30 p.m.

### KEYNOTE: 130 Interviews and Counting — Leadership and Influence in HSE

**PRESENTER:** Jason Kunz, CIH, CSP, EHS Cultural Excellence Evangelist, 3M,  
*Saint Paul, MN*

Based on recent trends, specifically serious injury and fatality (SIF) trends, we must continue to develop our leadership and influence. Surveys from business executives confirm that employers want strong leadership and communication expertise in their HSE professionals. Understanding key principles and building leadership and communication skills are what make the difference in achieving success in today's competitive marketplace — but how do we do this? Following more than 130 interviews with top HSE and operational leaders, and years of qualitative research, we uncovered some answers — and they aren't what we expected. Join us for this engaging, informative, and empowering session that will leave you saying: "that wasn't your typical HSE talk," while providing insight into what's needed from us, now and moving forward.

## KEYNOTE: The Champion's Code — Building Relationships Through Life Lessons of Integrity and Accountability from the Sports World to the Business World

**PRESENTER: Ross Bernstein, Best-Selling Author, Speaker**

The best-selling author of nearly 50 sports books, Ross Bernstein is an award-winning peak performance business speaker who's keynoted conferences for Fortune 500 companies on all seven continents. Ross and his books have been featured on thousands of television and radio programs over the years including CNN, ESPN, Fox News, and CBS This Morning, as well as in The Wall Street Journal, New York Times and USA Today. He's spent the better part

of the past 25 years studying the DNA of championship teams, and his program, "The Champion's Code: Building Relationships Through Life Lessons of Integrity and Accountability from the Sports World to the Business World," illustrates what it takes to become the best of the best. In an engaging, provocative, and visually entertaining style, Ross will use inspirational stories and poignant life lessons from the world of sports to show how to separate yourself and your business from the rest of the pack through servant leadership, by creating a culture of excellence, by developing deeper relationships, and by giving extraordinary customer service.

## 87th Annual Governor's Safety Awards

The Governor's Safety Awards Program has been honoring Minnesota workplaces for excellence in safety since 1934. Join us as we recognize this year's recipients who have achieved outstanding results in safety.

**EXPERIENCE LEVELS: [1] Fundamental, [2] Intermediate, [3] Advanced**

## EXHIBIT HALL OPEN 7:30 a.m. – 2:00 p.m.

**Dedicated Exhibit Time  
9:00 – 10:30 a.m.**

## SESSIONS 10:30 – 11:30 a.m.

### Technical Writing Tips for the Safety & Health Professional [2]

**PRESENTER: Cynthia Braun, CSP, CHMM, CIT, President, Braun Safety Associates, LLC, Littleton, CO**

Your writing is a reflection of your professional abilities. In just one hour, this session introduces you to the essentials of technical writing, and provides tips for clear and concise presentation of technical information.

You will learn how to write more targeted, effective documents to make the most of your written communications. Whether you write reports, memos, procedures, investigation summaries or white papers, you will have several take-aways and reminders from this power hour of excellence in written safety and business communications.

### Smokescreen: Marijuana Use and Workplace Safety [3]

**PRESENTER: Scott Gesinger, CSP, Safety Manager, Life Link III, Chaska, MN**

Legalization of marijuana is leading to new challenges for safety professionals. This presentation examines the relationship between marijuana and workplace safety. Join this session to learn the true

safety-related affects of marijuana use inside and outside of the workplace and understand the legitimate reasons workers might engage in marijuana use.

### Arc Flash, The NFPA 70E Standard and Your Electrical Maintenance — Are You Prepared? [2]

**PRESENTER: Joseph Schommer, Business Development Manager, RESA Power, Blaine, MN**

The world of electrical hazards, protection and accident prevention can be a confusing place. Hundreds of deaths and thousands of injuries can be avoided each year by following the NFPA 70E: Standard for Electrical Safety in the Workplace. Be

prepared by arming yourself with the knowledge of the types of electrical hazards and the effects of electrical shock and flash. This session will identify the need for electrical safety as well as electrical maintenance and safety programs. Attendees will learn about arc flash hazard risk assessment, personal protective equipment (PPE), and shock and arc flash approach boundaries.

### Fatigued at Work — Drowsy Behind the Wheel? [1]

**PRESENTER: Lisa Kons, Traffic Safety Programs Manager, Minnesota Safety Council, Saint Paul, MN**

Workplace fatigue is a problem that goes largely unaddressed. Organizational factors like shift scheduling and fatigue management plan can contribute to the fatigue burden in the workplace. Attendees will learn the various factors that cause

fatigue, how to identify risks at work and on the road, and ways to ensure safe working environments and safer drivers.

## BREAK/EXHIBIT HALL

11:30 a.m. – 12:30 p.m.

Make sure to visit the Virtual Exhibit Hall, open Tuesday from 7:30 a.m. – 3:30 p.m and Wednesday from 7:30 a.m. – 2:00 p.m. You'll find friendly and helpful exhibitors with practical, economical solutions to make your safety program more effective. See page 18 for exhibitor list.

## SESSIONS 12:30 – 1:30 p.m.

### Working WITH Resistance to Change [3]

**PRESENTER:** Rob Chvatal, Vice President of Safety, Braun Intertec, Bloomington, MN

Change continues to be a constant and at times significant part of our workplaces, and lives overall. We all resist change and the ideas or request of others, at time; and sometimes with very destructive behaviors. Resistance is very predictable, and when we decide to help people through it, we can generate an increase in commitment to making the change work. This session will discuss the costs and benefits of working with resistance rather than ignoring or crushing it; three common and distinct sources of resistance we need to be aware of; and what we can do to anticipate and help others through each of these sources.

### Occupational Disease Investigation Programs [3]

**PRESENTER:** David Duffy, CIH Principal Consultant, Occupational Disease Practice Leader, Chubb Global Risk Advisors, Minneapolis, MN

The safety and health professional is uniquely qualified to assist in the evaluation of occupational diseases and injuries. EHS professionals who have significant industrial experience and an understanding of basic toxicology, especially as it relates to chemicals within their industries, can play a role in assessing the merits of an occupational disease. This presentation will focus on occupational diseases and the assessment protocol we use to assess the merits of the claim.

### EHS Certifications — Help or Headache?! [2]

**SPEAKER PANEL:** Bradlee Hickey, CSP, CIH, OHST; Don Freitag, CMSE; Emily Rixen, CSP, CHMM; Beth Firkins, Antea Group

Is a certification on your bucket list for this year or in the next five years? Discover if a certification is worth it for you. Engage with our panelists during this session to hear about a variety of certifications (including GSP, CHMM, CMSE, CIH, ASP, CSP) achieved by members within the Emerging Safety Professionals group. Leave this session with the information and motivation to help you achieve your next certification.

**\*Emerging Safety Professionals Session**

### Critical Elements of Fleet Safety Process — Be Prepared for Auto Liability Renewal [3]

**PRESENTER:** Nancy Bendickson, CDS, CSP, ARM, ALCM, Managing Consultant, Aon, Lincolnshire, IL

If you have a fleet with either company-owned or non-owned vehicles, you have likely had a significant increase in auto liability renewal in the past year. This session will outline key elements of fleet safety that help demonstrate strong fleet management controls to your insurance carrier and help reduce the total cost of risk associated with operating a fleet.

## WELLNESS MINI SESSIONS

1:40 – 2:00 p.m.

### Emotional Resilience and Mindfulness: Two Elements for Unleashing Your Potential

**PRESENTER:** Jason Kunz, 3M Global Health, Safety & Sustainability, 3M, Saint Paul, MN

Employee wellness has taken on increased importance during this challenging time. Two-thirds of people report increased stress during the pandemic, and 54% report feeling emotionally exhausted. This wellness session will highlight the importance of mindfulness and emotional resilience to support organizational growth and putting people first.

### Important to Take Time for YOU!

**PRESENTER:** Maureen Grosse, MS, 500 RYT, C-IAYT, NBC-HWC, Certified Yoga Therapist and National Board Certified Health and Wellness Coach

Join yoga therapist Maureen Grosse for a guided meditation and breathing exercise targeted towards creating a sense of relaxation and balance in the mind and body.

### Covid Vaccine 101

**PRESENTER:** Dr. Tami Sublette, Pharmacy Clinical Services Manager, Minnesota/Iowa

One of the best ways to protect yourself against Covid-19 is to get vaccinated. People have questions about the vaccines and this discussion will provide answers. Learn the facts about the vaccines, what the differences are among them, and whether or not you should choose one over the other.

## SESSIONS 2:15 – 3:15 p.m.

### Protect Your Hearing in Less Time Than It Takes to Damage It [3]

**PRESENTER:** Brian Felsen, COHC, Associate of the Safety Institute, Chief Hearing Loss Preventionist, Your Ears Rock, Plymouth, MN

Noise-induced hearing loss and tinnitus are the most common permanent and preventable occupational injuries in the world. This session will review an evidence-based educational program dedicated to reducing the incidence and prevalence of noise-induced hearing loss (NIHL) and tinnitus in a experience-based way. In addition, learn how to properly select and wear hearing protection; identify sources of excessive sound exposure in daily life; demonstrate ways to incorporate hearing conservation into your organization; and identify settings not regulated by OSHA that may benefit from hearing conservation efforts.

### Developing a Successful Comprehensive Ergonomics Program [2]

**PRESENTERS:** Gretchen Templin, Ergonomics Manager; Justin Madigan, Ergonomics Engineer, Cummins Power Systems, Fridley, MN

Do you have a high number of ergonomics injuries at your facility? Learn how to develop and implement a comprehensive ergonomics program from the ground up to address ergonomic risks at your site. This session will highlight Cummins successful ergonomics journey over the past four years;

a program designed for a manufacturing assembly plant; various engineering and administrative solutions to reduce ergonomic risk and injuries; how to approach and improve your ergonomics incident investigation process; and how to improve deficiencies in your ergonomics program.

### Stress and Anxiety of a Safety Professional [3]

**PRESENTER:** Denise Slipy, Health and Safety Manager, Park Industries, St. Cloud, MN

Do you feel stressed? Do you have anxiety? You are not alone! The daily struggle to keep your employees safe and healthy can be taxing on your well-being! This session will discuss how to cope and regroup.

### Auditing Process Safety Programs [2]

**PRESENTER:** Peter Montagna, MS, CSP, Director, Global Process Safety and EHS Audits, H.B. Fuller, Vadnais Heights, MN

Auditing process safety programs requires both auditing skill and subject matter expertise in process safety. This session will combine these two topics to help practitioners improve their effectiveness and ability to provide a useful audit result. Other highlights include tips and tricks for performing audits; elements of an effective process safety program; auditing process safety programs; and learning from mistakes.

## CLOSING SESSION 3:30 – 4:30 p.m.

### KEYNOTE: Leading from the Middle

**PRESENTER:** Steve Donofrio, Speaker/Trainer/Coach, Eden Prairie, MN

Like a non-commissioned officer in the Army, the safety professional is on the front lines, in the middle, is both follower and leader, is expected to organize things and people, recognize and solve problems on the fly and do it all with confidence, the right attitude, and demeanor. In this session attendees will learn the RULE of leading from the middle to build and maintain a safety-first culture. Because you know safety is no accident, you'll learn the power of personal Responsibility and that every problem has a solution; to Understand self and others in deeper more meaningful ways; to Lead regardless of title or position; and you'll learn how to get people Engaged and active in safety.

AP Safety Training provides employee HR and safety training via a wide variety of options, including an LMS platform with testing and tracking features, streaming video, SCORM course shares, digital media licensing, flash drives and DVDs. Custom on-site production services and customized LMS course creation services are also available. AP Safety Training is committed to providing customers with best in class safety video training media in the format and delivery method that best suits their unique needs.

## Assured Security

9905 Lyndale Avenue South  
Bloomington, MN 55420  
Lisa Colon  
952-881-0896  
lisac@AssuredSecurityMN.com  
www.AssuredSecurityMN.com

Assured Security, previously known as Bloomington Security Solutions, is a commercial security company specializing in door, lock, and electronic security solutions. Electronic services include keyless entry systems, intercoms, remote access, phone entry systems, security cameras and alarms. Locksmithing services include rekeys, high-security locks, master-key systems, intelligent key systems, and safes. Door services include door installation, replacement, and repairs. We offer all door hardware, including automatic door operators, door closers, panic bars, latch guards and many hands-free alternatives.

## ATC Group Services LLC

5301 East River Road, Suite 101  
Fridley, MN 55421  
Steve Heikkila  
763-347-7201  
steve.heikkila@atcgs.com  
www.atcgroupservices.com

ATC is a national provider of integrated environmental consulting and engineering services. ATC will help you successfully manage environmental, construction and health and safety issues that impact land, buildings and people. We offer a broad range of health and safety consulting services to assist building managers, human resource administrators and safety professionals. For short-staffed employers, we provide industrial hygiene sampling, regulatory compliance audits, employee health and safety training and written compliance programs tailored to your operations.

## Barefoot Ergonomic by Beagle I, Inc.

202 South Lake Avenue, Suite 230  
Pasadena, CA 91101  
Ken King  
213-229-0830/813-793-0079  
ken@barefoot-flooring.com  
www.barefoot-flooring.com

Beagle I, Inc. is the manufacturer of Barefoot — an anti-fatigue floor mat that use high quality rubber. Barefoot mats are highly effective safety mats that provide exceptional comfort for people who stand for long periods of time. The company also offers GoodToGo — a warehousing traffic safety and warning system. It also sells Barefoot OnTheRun — a comfortable ergonomic footwear intended for use in dry areas where ergonomic matting is impractical.

## Bay West, LLC

Kyle Kutsup  
210-495-8788/877-348-4975  
kylekutsup@wellworkforce.com  
www.wellworkforce.com

Fit For Work™ is an on-site injury prevention company that provides a preventative strategy which is driven by a FFW Onsite Injury Prevention Specialist. This specialist (physical therapist, certified athletic trainer or occupational therapist) is located on-site, at your location, for a certain number of hours per week to prevent your employees from becoming patients. Their focus is on three leading indicators to an injury: early soreness, ergonomics, behaviors. The output of this focus is that the client will experience at least a 50% reduction in injury claims and their associated costs. We are currently on-site at over 850 locations across 44 states and Canada and rapidly growing.

## Hy-Test Safety Shoe Service

225 East Roselawn Avenue, Suite 1

bobby@medcompass.net  
www.medcompass.net

Since 1985, Med Compass has been offering OSHA compliance for occupational hearing tests, medical respiratory clearance, respirator fit tests, vision testing, plus SCBA/HAZMAT physicals — all at your doorstep! Med Compass has the most experienced personnel to analyze documentation. Along with our field technicians we bring the total package, collecting and analyzing information to insure you stay in compliance with OSHA. Wellness programs and sound surveys round out our services. Experience stress-free and timely testing at a time convenient for you.

## Minnesota Department of Labor & Industry, Occupational Safety & Health Division (MNOSHA)

433 Lafayette Road North, Suite 400  
Saint Paul, MN 55155-4307  
Lorinda Floding  
651-284-5050/877-470-6742  
osha.compliance@state.mn.us  
www.dli.mn.gov

Minnesota Department of Labor & Industry, Occupational Safety & Health (MNOSHA) is a federally approved state plan program, providing enforcement, consultation and outreach services to employers and employees throughout Minnesota.

## Minnesota Department of Labor & Industry, Workplace Safety Consultation

443 Lafayette Road North  
Saint Paul, MN 55155  
Maria Santiago  
651-284-5233  
maria.santiago@state.mn.us

Upon request, employers can use this free consultation service to find out about potential safety and health hazards at their worksites, improve their safety management systems and even apply for a safety grant of up to \$10,000 to abate safety hazards.

## Minnesota Network of Employers for Traffic Safety (NETS)

474 Concordia Avenue  
Saint Paul, MN 55103  
Lisa Kons  
651-228-7330  
lisa.kons@minnesotasafetycouncil.org  
www.minnesotasafetycouncil.org/nets

A private not-for-profit organization dedicated to getting traffic safety information into the hands of employers.

## Minnesota Occupational Health

4360 12th Avenue East  
Shakopee, MN 55379  
Jim Sebesta  
651-968-5300  
contact@mohonline.com  
www.mohonline.com

For 23 years, Minnesota Occupational Health (MOH) has grown to four full-service occupational medicine clinics: Shakopee, Eagan, Blaine and St. Paul. Locally owned and accountable to employers like you, MOH delivers full-service work-injury care, pre-placement, work simulation, DOT, HAZMAT, Respirator and FAA exams among others. Audiograms, fit-testing, silica, chemical and heavy metal medical surveillance, vaccinations and titers are always available. In-clinic and 24/7 on-site drug testing is also offered. Join over 70 municipalities, 6 counties, all divisions of

the Metropolitan Council and thousands of private companies who have partnered with Minnesota Occupational Health; your ultimate partner in hiring and retaining a healthy and safe workforce.

## Minnesota Safety Council

474 Concordia Avenue  
Saint Paul, MN 55103  
Bridget Kelly  
651-228-7307  
bridget.kelly@minnesotasafetycouncil.org  
www.minnesotasafetycouncil.org

The Minnesota Safety Council — a chapter of the National Safety Council — is a member-based, private, not-for-profit organization dedicated to preventing unintentional injuries — a leading cause of death, disability and economic loss. Since 1928, our sole focus has been to make Minnesota a safer and healthier place to live. Our classes, seminars and consultation help employers develop safety programs, comply with regulations and keep their workers safe. We offer traffic programs for the workplace and the larger community, including defensive driving classes for mature drivers and interactive online programs for teens. We also provide numerous resources and programs to support safety at home and in the community. We believe in the strength of coalition — working in partnership with other organizations is central to our mission.

## MSA

4633 Stonecliffe Drive  
Eagan, MN 55122  
Scott Johns  
651-260-3166/800-672-2222  
scott.johns@msasafety.com  
www.msasafety.com

MSA was founded in 1914 by two mining engineers who designed safety, rescue, and protective gear. MSA has continued to help protect people from hazards great and small. MSA makes and markets respiratory protection, gas detection, head, eye, face, and hearing protection and fall protection. MSA also offers certified fall protection and confined space training. What have we done for you lately?

## National Safety Education Center

148 North 3rd Street  
DeKalb, IL 60115  
Pettee Guerrero  
815-753-6902  
nsec@niu.edu  
www.nsec.niu.edu

The National Safety Education Center is one of 26 OSHA Training Institute Education Centers (OTIEC) in the nation. These education centers are a national network of non-profit organizations authorized by OSHA to deliver occupational safety and health training to public and private sector workers, supervisors, and employers.

## Nelson-Jameson, Inc.

2400 E. 5th Street  
Marshfield, WI 54449  
800-826-8302  
sales@nelsonjameson.com  
www.nelsonjameson.com

We offer a wide line of products and services to help keep your employees safe and healthy while on the job. We have a tremendous selection of gloves, footwear, clothing, head and face protection, and respiratory protection. We also offer facility identification and 55 products with custom solutions available. In addition, we have a full line of color-coded and metal detectable products to help prevent cross-contamination. At Nelson-Jameson your safe, quality food is our business.

## NovaCare Rehabilitation

1107 Hart Boulevard, Suite 10  
Monticello, MN 55362  
Paul Hansen
