Drive SAFE Work SAFE Live SAFE

AGENDA

7:30 a.m. | Check In and Exhibits
8:00 – 9:30 a.m. | Keynote
THRIVE: Energizing Your Life and Career from the Inside Out
Are you thriving or surviving at work? Are you happy with the current direction of your life and career? Would you like to take your career to the next level? Are you truly living a values-based life? Topics include personal branding, career engineering, leadership development, and overcoming workplace stagnation. Jermaine Davis, CEO and President, Jermaine M. Davis Seminars and Workshops, Inc., Roseville, MN

9:30 – 10:00 a.m. | Exhibits
10:00 – 11:00 a.m. | Sessions
Risk and Hazard Assessments
This session will discuss the process of identifying potential hazards and analysis techniques to identify risk within your organization, as well as cover effective hazard controls that can be put in place. A variety of workplace settings and risk potentials will be covered. Industrial Hygiene will be included as an example of a potential risk that needs to be addressed and controlled. Alanna Soukkala, CSP, OHST, Safety Consultant, Marsh & McLennan Agency LLC, Duluth, MN

Minnesota OSHA Update
Don’t miss this overview of fatality, trends and statistics, current MNOSHA staffing, and the inspection process, including various types and priorities of inspections. Several enforcement standards MNOSHA is prioritizing will also be discussed. Jim Krueger, Director, Occupational Safety and Health Division, MNOSHA, Saint Paul, MN

11:00 – 11:30 a.m. | Exhibits
11:30 a.m. – 12:30 p.m. | Sessions
Jump Starting a Safety Culture Shift in Your Organization
This session will dive into what approaches have worked for the City of Duluth to improve safety culture, injury rates, and employee engagement in the safety program. It will also cover how a safety professional can work to affect change in their organization when starting out with very little budget, buy-in or authority. Amber Haglund-Pagel, CSP, Safety and Training Officer, City of Duluth, Duluth, MN

Serious Injury and Fatality (SIF) Precursor Customization Project
Over the last decade, the rate of serious injury and fatality (SIF) events has plateaued in some sectors. Recent research in construction sectors found that there are identifiable precursors to SIF events that can be determined systematically through field safety engagements. In this session we will overview a two-year effort that combined scientific rigor with a practical perspective to arrive at a research-supported strategy for assessing the likelihood of a SIF event. Ian Wenzel, CSP, Manager, Safety & Industrial Hygiene, ALLETE – Minnesota Power, Duluth, MN

12:30 – 1:30 p.m. | Networking Lunch
1:30 – 2:30 p.m. | Sessions
Arc Flash, The NFPA 70E Standard and Your Electrical Maintenance
Hundreds of deaths and thousands of injuries can be avoided each year by following the NFPA 70E: Standard for Electrical Safety in the Workplace. This session will identify the need for electrical safety as well as electrical maintenance and safety programs. Attendees will learn about arc flash hazard risk assessment, personal protective equipment (PPE) and shock and arc flash approach boundaries. Reduce your liability concerns while establishing a culture of safe work practices among employees after attending this session. Joe Schommer, Business Development Manager, RESA Power, Blaine, MN

Danger! Noise! Loud Sound On and Off the Job
In the interest of continued productivity and quality of life, this presentation explores the potential risks and effects of excessively loud sound on safety, hearing and health, both on and off the job. It raises sound safety awareness for employees, families and communities to work safe and live safely. Monique Hammond, Registered Pharmacist, Health and Hearing Consultant, Ralph D. Thomas and Assoc. Inc. Consultants, Minneapolis, MN

2:30 – 2:45 p.m. | Closing Remarks/Prizes
(Must be present to win.)
