Electrical Safety in the Workplace: NFPA 70E

Updated! Electrical Safety in the Workplace: NFPA 70E
November 8, December 11, January 16, February 9, March 19

Includes NEW 2017 NEC Code changes & 2018 NFPA 70E Code changes!

You'll learn:

- What a "qualified person" is as defined by OSHA
- What an arc flash/arc blast is
- Who must be trained
- Proper selection and use of PPE
- Clearance distances
- Proper lockout/tagout procedures

This course meets the requirements for both qualified and non-qualified workers. Qualified workers are required to attend a mandatory refresher course every three years.

Also available for customized training at your facility. Contact Gina at gina.hoffman@minnesotasafetycouncil.org for details.

The Weather Outside is Frightful...Are Your Employees Prepared?

There's nothing like a snowfall to test those rusty winter driving skills! Whether employees drive for work or simply to and from, a crash can take them off the job. Help prepare them with resources provided by the Minnesota Network of Employers for Traffic Safety.

Distribute timely winter driving reminders like our Winter Driving fact sheet or Winter Driving Tips checklist and other free resources including brochures, posters and daily e-mail blasts.

Offer a winter driving safety seminar for your employees reviewing these critical topics:

- Following distance and reaction time
- Blind spots and tailgates
• Slipping and sliding
• How to prepare your car for winter
• Winter travel tips
• Emergency stops
• Bridge decks and entrance ramps

For more information or to schedule a seminar at your location, contact Lisa at 651-228-7330/800-444-9150 ext. 330; lisa.kons@minnesotasafetycouncil.org.
